Standards and Trade Development Facility (STDF) 2018

The STDF has on-going work on the implementation of standards through public-private partnerships (PPPs). In March 2018, the concept note on PPPs was updated to outline planning for new STDF work on PPPs, with the overall aim of building on, updating and complementing previous work by the STDF and its partners.

[Download the concept note from the STDF website]
